

INSTALLATION INSTRUCTIONS

Part Number 33-2186

This filter fits: See catalog for current applications

* **FREE K&N® decal** To register your warranty, please see us online at knfilters.com/register. **FREE K&N® decal ***

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modification will be required. However the following procedures **MUST** be followed to ensure the proper fit and seal of the K&N® air filter.

INSTALLATION:

1. Unfasten the three clips holding the airbox lid to the base.
2. Remove the stock air filter.
3. Wipe out any dust or dirt that may be inside the air filter housing. Be very careful not to allow any debris to fall down into the throttle body.
4. Install the K&N® air filter into the air filter housing making sure that the four tabs on the filter are pointing down. (Fig 1)
5. Re-install the airbox lid and refasten the three clips.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
