

Installation Instructions

Part Number 33-2939

This filter fits: **SEE CATALOG FOR CURRENT APPLICATIONS**

***FREE K&N DECAL To register your warranty, please see us online at knfilters.com/register. FREE K&N DECAL ***

Congratulations, you have just purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N air filter seals properly.

Installation

1. Open the stock air box.
2. Remove the stock air filter element and clean the inside of the box.
3. Insert the K&N Air Filter into the air box. Place the provided metal inserts into the tabs of the K&N air filter (Figure 1).
4. Place the air box lid back onto base.
5. Use provided washers and screws in place of original air box hardware to ensure secure fitment of air box lid (figure 2).

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
