

# INSTALLATION INSTRUCTIONS

Part Number HA-2501

**This filter fits:** SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Air Filter seals properly.

## INSTALLATION

1. Remove the stock screw holding the bracket to the air box.  
**Note:** The bracket will be installed onto the K&N Air Filter.
2. Loosen the stock clamp and remove the stock air filter.
3. Carefully clean the inside of the intake tube.
4. Install the provided hose clamp onto the outside of the intake tube. Do not tighten at this time.
5. Install the flange of the K&N Air Filter into the intake tube in the air box.
6. Tighten the clamp. Do not over-tighten.
7. Install the stock air filter bracket onto the nipple on the end of the K&N Air Filter.
8. Secure the bracket to the air box with the stock screw.
9. Reinstall the air box lid.

### Available to purchase separately

Precharger Wrap; part number YA-3504PK

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
