

Installation Instructions

PART NUMBER: HA-7008

This Filter Fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have just purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N air filter seals properly.

INSTALLATION:

1. Remove the stock air filter.
2. Install the K&N Air Filter into the air box. (Fig. 1)
3. Unclip and remove the clear hose from the air box. (Fig. 2)
4. Unclip and remove the clear hose from the chassis. (Fig. 3)
5. Remove the clear water drain hose from the bike.
6. Install the provided cap plug onto the water drain vent hole. (Fig. 4)

NOTE: Secure with the stock clip removed in Step 3.

7. Reinstall the air box lid and screws.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
