

INSTALLATION INSTRUCTIONS

Part Number SU-6599

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Filtercharger® seals properly.

INSTALLATION

1. Remove the stock air filter.
2. Install the provided gasket into the groove of the K&N Filtercharger® without stretching it. (Fig. 1)
3. Cut the remainder of the gasket material so the two ends are touching.
4. Apply a thin layer of the provided K&N Sealing Grease over the gasket material and groove area.
5. Install the K&N Filtercharger® into the air box and tighten the stock screws.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
